Midterm Project: Create and publish a restaurant website with at least three linked pages using HTML and CSS.

Use your creativity and incorporate the features discussed in class. See examples below.

| Three or more pages Index page Three or more links Functional Links Hosted on 000WebServer URL provided images Image attributes Stacked images Tables Nested Tables Tables with colspan , rowspan CSS Box Model CSS Embedded Styles CSS Inline Styles CSS External Styles iFrame Semantic Elements: <div>, <footer>, <header>, <aside>, <nav>, <article>, <title> Layout: float, clear Color: Background vs Foreground Alignment</th><th></th><th></th></tr><tr><td>Three or more links Functional Links Hosted on 000WebServer URL provided images Image attributes Stacked images Tables Nested Tables Tables with
